

Third-level domain (Subdomain)

Top-level domain (TLD)

The diagram illustrates the hierarchical structure of the domain `sub.example.com`. It features four labels with arrows pointing to specific parts of the domain: 'Third-level domain (Subdomain)' points to 'sub', 'Top-level domain (TLD)' points to 'com', 'Second-level domain' points to 'example', and 'Root domain' points to the final dot. The domain name is color-coded: 'sub' is blue, 'example' is red, and 'com' is green.

sub.example.com.
